SIXTY-EIGHTH YEAR

EDMONTON, ALBERTA, WEDNESDAY, JULY 28, 1948

Telephone 26121 PRICE 5 CENTS

Edmonton's Population Is 126,609

8,068 Increase Is the Greatest In City's History

Edmonton's population is now 126,609, according to 1948 census figures released today by Thomas Walker, city assessor.

This is an increase of 8,068 over the 1947 count of 118,541.

The increase is the greatest in the city's history.

North side population in 1948 is 61,181 compared with 59,427 last year, an increase of 1,754.

SOUTH SIDE 32,428

South side population this year is 32,428 against 29,084 in 1947, an increase of 3,344.

Population on the north side west of 101 street this year totals 41,541, and east of 101 street, 20,880.

On the south side the population west of the CPR tracks is 14,641 and east of them, 17,787.

Adult population in 1948 is 84,802 and population of persons under 21 years, 41,806.

2,811 MORE FEMALES

There are 3,011 more females than males, according to the census figures.

Total of males is 61,499 compared with 61,310.

Males over 21 years total 40,848 and females 42,897. Males under 21 are 41,000 and females 41,797.

Total of males is 61,499 compared with 61,310.

North side females outnumber males by 4,344 to 4,537. On the South Side females outnumber males by 1,676 to 1,536.

Population increase on the South Side has been very marked. This year's census shows an increase of 3,344 compared with 1,381 in 1947.

REASON FOR INCREASE

Reason for this increase is the addition to the city of the Pleasant view sub-division where the count shows a population increase of 1,000.

Factors are the housing developments in the south-west and the south-east district of the city.

The 1948 enumeration indicates a continued movement of population from the downtown area.

There is a decrease of 1,304 in the central polling districts.

Election Workers In Pitched Battle

QUEBEC, July 28.—(AP)—A fight between United Nations and Liberal election workers in Montreal, real riding led to two arrests today as voters in most parts of the province quietly chose 92 representatives in the 22nd federal election.

In all there were five arrests in Montreal.

Police, who sent five carloads of rioters to break up the pitched battle, they were ready for any emergency.

Meantime, five persons, including a lawyer, were arraigned in a Montreal court on charges of rioting, disturbing the peace or interfering with election workers.

Farm Machinery Hit If Freight Rate Up

Alberta farmers would suffer heavily if a further increase in freight rates is granted, a survey has shown today.

Farm machinery especially would jump an average of \$14, for heavy implements, over the price prior to the recent 21 per cent increase granted Canadian railroads.

The biggest increase would be on Canadian-made machinery, it is learned.

The latest increase sought by railroads would raise the rate to 21 per cent over the present 10 per cent.

Prices here 35 cents per 100 pounds. Prices of tractors, most of which are manufactured in U.S., would be as drastically affected by a 21 per cent increase in Canadian freight rates, the dealers said.

The tractors are brought into Canada at a western port of entry, and then by rail to the Canadian rail lines is shorter, and the increased cost amounts to 10 cents per hundredweight.

A further increase would boost this rate to 38 cents per hundredweight.

Ex-Millionaire Can't Find Home So Plunges to Death

TORONTO, July 28.—(CP)—Anzil Kigowski, 52, a former Polish millionaire whose wife and two daughters were killed during the Second World War by the Germans, jumped 70 feet to his death over a viaduct Tuesday, a month after he arrived in Canada.

Coroner K. B. Baxter attributed the suicide to despondency. He said Kigowski had been brought to Canada by a friend but had been unable to find a job or a place of his own in which to live.

Where 29 Died in Air Crash

CANADA'S WORST PLANE DISASTER occurred when 29 died in the wreck of a C-54 Quebec's Garpe Peninsula Saturday. The aircraft was on its way from Anticosti Island to Gaspé, when, it is believed, it struck a cliff-face. It was a few minutes from the landing place.

A bolt of lightning completely destroyed a private garage at 7435 Saskatchewan Drive. Fire caused by lightning struck the building by the time fire equipment reached the scene.

NO DAMAGE

Another flash caused wall scorching in the attic of A. S. Sherman's residence at 10124 124 street.

The garage fire call came at 6:25 p.m. while the bolt struck the Sherman home at 6:14. No fire damage resulted at the Sherman home.

The fire department had another run at the height of the storm to the Redwood Building occupied by DVA officers at 113 street and Jasper avenue. A bolt of lightning struck the building, putting out electrical circuits in the building.

WINOOSKI, Vt., July 28.—(AP)—Police chief Charles Barber is baffled by an attempted jail break—in reverse. Found mysteriously smashed was a door leading into the Winoski Jail.

German Plant Boosts Production More Than 500 Pct.

'Thousands May Be Dead' U.S. Army

FRANKFURT, July 28.—(HUP)—U.S. Army crews reported to headquarters that the explosions at the Farben Chemical plant at Ludwigshafen still were going on sporadically tonight.

The first short message from an army crew on the scene said:

"Two hundred known dead, Twenty-five hundred treated for wounds, many suffering from chemical burns. French army on scene. Explosions continue."

City administration officials in Ludwigshafen, said 600 persons were dead and 1,400 were injured.

MANNHEIM, Germany, July 28.—(CP)—Police said between 500 and 800 persons were killed and 2,000 injured in an explosion and fire which wrecked the I. G. Farben chemical plant at Ludwigshafen.

A report from Frankfurt the United Press said the U.S. Army late today released an estimate that about 2,000 persons have been killed and a comparable number injured.

The report said the estimate was unofficial and subject to downward revision.

The army reported that the sprawling plant and its buildings, was 80 per cent destroyed.

The German News Agency in its first report of the blast estimated casualties at 600 or more.

Several thousand persons have been killed and a comparable number injured.

Gov't, Business Leaders Rap Freight Raise

Edmonton city and provincial officials, leaders of farmer organizations, businessmen, and the high-price-ridden consumer were joined by today's news of a possible 20 per cent increase in Canadian freight rates.

Premier Ernest Manning termed the latest report by the Railway Association of Canada a "very serious matter."

Speaking to The Bulletin by telephone from Grande Prairie, where he is campaigning for the coming provincial election, Mr. Manning said: "This request emphasizes the necessity for the Dominion government to take action immediately on freight rates."

Representations of the seven provinces in the matter of the first freight rate increase.

COMMISSION ASKED

Premiers of all provinces except Ontario and Quebec have asked the federal government to appoint a Royal Commission to investigate Canadian freight rate structure, and to suspend the last 21 per cent increase until such a commission's report could be made.

The seven premiers have conferred twice with the federal cabinet. Mr. Manning stated that the premiers have contended that "debating figures" were included in the Railway Association request for the first freight rate increase.

He suggested that if those figures are investigated by a body such as a Royal Commission, it will be shown that the first freight rate increase can take care of even the recent 17 per cent per hour wage increase granted to railway employees.

WANTS RATES ADJUSTED

Major Harry Anis told The Bulletin that the city can only tolerate its contentions concerning the first freight rate jump.

"All freight rates should be held until freight rates are adjusted equally," Mayor Anis said.

Don Mackay, secretary of the Edmonton Chamber of Commerce, said that the 17 cents per hour wage increase "is supposed to have been taken care of."

Carl W. Simpkins, president of the Alberta Farmers' Union, upheld the stand taken by his organization when the railways applied for the 17 per cent increase.

"We're definitely opposed to any increase in freight rates until the government proves that this increase is needed," he said.

"If only smoke" was the first comment on the rate increase.

U.S. to Probe UN Staffs

WASHINGTON, July 28.—(HUP)—Secretary of State George C. Marshall announced today that he has appointed a committee to investigate whether any foreigners in this country on United Nations business are engaged in activities detrimental to the security of the United States.

Marshall told a news conference the committee will also try to determine whether there is a need for tightening laws designed to protect U.S. security.

Officials explained after the press conference that the committee will investigate all foreigners connected in any way with the UN. They said the following groups will come under scrutiny:

The UN secretariat, 2. Staffs of the various member governments, 3. Newspaper and radio newsmen and photographers, 4. Members of specialized agencies related to the UN such as United Nations economic and social council, 5. Persons who are not members of UN staffs but who come to the UN headquarters on invitation of the UN.

West Agreed on Next Berlin Moves—Marshall

(HUP and AP Dispatches)

WASHINGTON, July 28.—Secretary of State George C. Marshall confirmed today that the three western powers have reached an agreement in Berlin blockade.

But Marshall would not reveal at a press conference whether the western strategy calls for the American, British and French ambassadors to Moscow to take the issue with Soviet to Russia, is in line with Foreign Minister V. M. Molotov.

TALK ALL EUROPE

Messiah in London a British newspaper said today that Britain, France and the United States will offer to begin talks with Russia "on a general European settlement as a whole."

The Whitehall informant said the western power idea would be to broaden the projected four-power talks to include Germany to embrace all outstanding European differences between east and west.

OFF TO MOSCOW

Earlier, an official British source had said the six-power London agreement to set up a German state would be frozen if German four-power talks on Germany were arranged.

Such talks may be decided in Moscow within a few days.

Walter Bedell Smith, United States ambassador to Russia, is en route to Moscow, possibly to initiate talks with Soviet Foreign Minister V. M. Molotov.

Frank Roberts, Foreign Secretary, said today that the British government will fly to Moscow this afternoon in the place of the British ambassador, Lord Halifax.

More Rain On Tap Today

More rain is on the weather menu for Edmonton today. The weatherman says there will be occasional showers throughout the day and early evening and skies will be cloudy all day.

Temperature will be considerably lower than on Tuesday, high today only 68 degrees. North-west winds at 15 mph will prevail most of the day.

Weather synopsis and official forecast issued at 10 a.m. today by the Dominion public weather office at Edmonton and valid until midnight Thursday:

SYNOPSIS

Cool Pacific air spread over Alberta during the night and is expected to move slowly eastward during the day. Showery weather will prevail in this fresh air mass with afternoon temperatures in the 60's.

Central Saskatchewan will have warm weather again today with widespread thunderstorm activity developing in the afternoon.

FORECASTS

Edmonton, Red Deer and Jasper: Overcast today with occasional showers stopping late this evening; cloudy tomorrow with light change in temperature; wind northwesterly 15; low tonight and tomorrow at Edmonton 33 and 37, Red Deer 31 and 37, Jasper 48 and 58.

Peace River Region: Cloudy during the afternoon, otherwise clear; change in temperature; wind northwesterly 15; low tonight and tomorrow at Peace River 30, high Thursday 72.

Liberals Call Sacred Gov't "Wasteful"

Alberta's Social Credit government is "just riding on a tide of general prosperity."

This charge was made today by Owen R. Brown, publicity director for the Alberta Liberal party.

In the radio address, Mr. Brown attacked the Sacred administration as "extravagant and wasteful."

Mr. Brown stated that since the present Social Credit government came into power in 1935, taxation in Alberta has increased over 250 per cent.

He added that this increase has been made by the government that was elected on a promise that it would abolish taxation completely.

"Another point to remember," said the speaker, "is the fact that since our 1935 population has increased only five per cent up to 1947, and yet the cost of government has increased by over 250 per cent."

Mr. Brown said that the cost of government will continue to be reduced if a Liberal administration is returned to Alberta, by introduction of efficient and businesslike administration.

Thieves Gain Little Loot Overnight

A lady's wrist watch was the only loot gained by thieves who ransacked a suite occupied by Mrs. Doris Tutty, 10432 97 street on Tuesday.

Entry to the premises was gained by releasing the lock on the front door.

Break-in occurred between 7:40 a.m. and 2 p.m.

Two men, believed responsible for syphoning gasoline from a Crown Prince car tractor at 122 street and 120 avenue, were seen driving away from the parking lot Tuesday night.

Night watchman on the grounds told police he observed two youths place a car in a car and drive away from the lot about 10:30 p.m.

James H. Gagnon, 10585 101 street, told police two fog lights were ripped from a car parked at 106 avenue and 104 street during the night.

Students Learn Fate August 5

Grade 12 students who wrote Department of Education examinations at the end of the last school term will learn their fate early in August.

How, Ivan Carey, Alberta minister of education, said today exam results would likely be released on August 5 or 6.

Grade nine results will be released within a few days after that.

He said that the only grades in Alberta where departmental examinations are written.

Dies At Convention

Delegate to the Elks convention being held in Edmonton, James Porter, of Prince Albert, Saskatchewan, was collapsed and died in his downtown hotel room Tuesday.

Way Cleared for K. Pants to Come Here

LONDON, July 28.—(CP)—The British government cleared the way yesterday for British industrialists to open branch plants in Canada or expand existing plants to open.

Douglas Jay, economic secretary to the treasury, announced in the Commons that they now may "take advantage" of investment facilities made available in December, 1946, by the Canadian government.

In some cases, funds for such projects may be provided by Canadian financial institutions.

PREVIOUSLY RULED OUT

Mr. Jay's statement was made only a few weeks after Premier Drew of Ontario held conferences with British officials on just such a program.

Until now, stringent foreign exchange regulations have almost completely barred British investment in Canada.

Mr. Jay said any new investment by British firms must be restricted to Canadian enterprises which are at disadvantage to the dollar position of the United Kingdom and to the interests of both countries.

The dollars which will be made available for investment in Canada are those accruing from the sale by the United Kingdom of government securities, or from the redemption of such securities, or from the sale of "necessaries" limited and variable.

NORMAL USE

Mr. Jay said that normally these dollars should be used to repay the \$100,000,000 interest-free loan made to Canada in 1945. But he continued:

"... government in December, 1946, agreed to set off against the dollar cost of new direct investments in Canada by United Kingdom residents. By new direct investments I mean the extension of an existing productive enterprise or the establishment of a new productive enterprise in Canada."

NEW PROJECT POSSIBLE

Power Shortage Here Looms, Minister Fears

Alberta is facing a shortage of electrical power in the near future, Hon. James A. MacKinnon, minister of mines and resources, said here today.

The minister drew attention to a possible power shortage after stating that Calgary Power Company Ltd. has made application to undertake a "large power development project" in the Spruce Lake district of Banff National Park.

Mr. MacKinnon said he would go to the Spruce Lakes area in the near future to study the situation at first hand.

Pointing out that the Dominion government is responsible for the orderly flow of river waters in the parks area, the minister said safeguards may have to be installed so that the scenic features would not be destroyed by the proposed power project.

Increasing industrial development in Alberta is draining the available sources of electrical power, Mr. MacKinnon said, and it will be a "big one."

The minister plans an early visit to the Yellowknife mining area, where he will look over

SOMBER COLORS, in shades of black, grey, beige and white were used by Lauren Harris, west coast painter, in his abstract "Transatlantic." Works on display include more formal paintings and landscapes as well as the more puzzling forms.

CONTRIVERSY RAGES in B.C. over paintings by native artists now on display in a Vancouver gallery. Some visitors, said the curator, are enthralled, some dazzled, some puzzled and a few get angry. Painting above is "Mary" by Peter Aspell.

Sacreds Take Firm Stand on Farmers

Gillies and Heard Support Government's Policy

Farmers of Alberta have been placed on the road to prosperity by the administration of the present Social Credit government.

This was the contention of J. H. Gillies, one of the five Edmonton Social nominees in the August 17 election, in a radio address Tuesday night.

He pointed to the pure bred policy of the government as indication of this trend.

More than 11,000 head of pure bred livestock have been distributed by the department of agriculture in the past ten years he said.

On the same broadcast, Dr. L. H. Heard, Edmonton chiropractor, also said the Social Credit state, said the Highway System Association, industrial production in Alberta has grown to three times its size in 1935, when the first Sacred government was elected.

Both candidates asked the voters to indicate their preference for Social Credit candidates by marking their ballots for them.

Red Deer School Closing August 6

Closing exercises for the Summer School Session at the Red Deer school, will be held August 6 at 10:30 a.m.

The school is sponsored by the Health and Recreation Branch of the Department of Education, University of Alberta.

A demonstration by students will highlight the closing exercises.

Contracts Awarded For Five City Schools

Contracts for five new public schools costing \$1,203,115.72 were awarded at a meeting of the Edmonton City School Board held Tuesday night in the Civic Block.

The schools are to be erected in the Altondale, Forest Heights, Kings, and the new school in the Sherbrooke district of the city.

FIRM BUILDS FOUR

General contractors for the four schools were let to the firm of Christensen and MacDonald for the Kings school, \$210,000; King Edward Park school, \$220,000; King Edward Park school, \$220,000; and Sherbrooke school, \$153,500.

GLASS BLOCKS EXTRA

An additional charge of \$1,500 to be made for the inclusion of glass blocks in specified locations in the construction was approved by the board.

Other bidders included Pugh Construction Co., Pruthi Construction Co. Ltd., Bennett and White Ltd., Mill and Olson, and James C. Haddow.

Electrical contract for the Altondale school was \$40,000; Kings school, \$20,400; King Edward Park school, \$15,000; and Sherbrooke school, \$14,000.

Successful contractor in each case was S. E. Noble Electric and successful electrical contractor included Hillel Company, Stanley Electric Company and McKenzie Electric.

Plumbing and heating contract for the Altondale school was \$40,000; Kings school, \$20,400; King Edward Park school, \$20,000; and Sherbrooke school, \$14,000.

Successful contractor in each case was S. E. Noble Electric and successful plumbing and heating contractor included Hillel Company, Stanley Electric Company and McKenzie Electric.

Lowest tender was accepted in each instance.

Contracts provide that the work shall be finished by the August 12, 1949, but do not carry a penalty clause.

Contract prices for each school exceed estimated costs by about \$40,000.

The company has a contract to take 2,000 horsepower the first year and will gradually increase the amount to 5,000 horsepower.

Mr. MacKinnon said the project will be the largest hydroelectric project in the province.

Consolidated Mining and Smelting Co. will take a certain amount of second-year electricity for use for electric boilers at the mine.

Alberta School Changes Announced by Minister

Changes in locations of many school department superintendents were announced today by Hon. Ivan Carey, Alberta minister of education.

Three newly appointed school superintendents were allotted their new fields.

J. L. Skaggs, who has been chief of the department of education's examinations branch, will become superintendent of the Grande Prairie, and will assist Superintendents George K. Haverstock, formerly on the education department's staff, and Earl S. Haskins to administer the affairs of Grande Prairie and East Smoky school divisions.

J. G. Hall, formerly principal of the school at Taber, will be superintendent at Lac La Poudre, and will replace Eric Hudson, who has recently been appointed to education faculty of the Alberta University.

The minister also revealed that would replace R. E. Byron, who has been granted a year's leave of absence to continue his studies in the field of education.

Reid Freed On Liquor Charge

A charge of illegal sale of liquor was dismissed against Henry H. Reid, 9060 Jasper avenue, in police court today.

Miss Rose Krozelle took out a building permit today for a building on 104th street and 102nd avenue, covering the construction of a commercial building at 10014 102nd street.

Porcupine, Bears In Vessel's Cargo

MONTREAL, July 28.—(CP)—The freighter Dorelian sailed today for Vancouver with four porcupine and two bear cubs on board.

The porcupine cubs are destined for a Zoo in Wales.

Remand Gawnthorne

Frank Gawnthorne, facing three charges of false pretences, was remanded to August 5 without plea in police court today.

The charges against Gawnthorne, obtained \$30 from two city residents by false pretences between 22 May and 24 June.

N.Z. Meat, Dairy Products For U.K.

LONDON, July 28.—(AP)—Food Minister John Strachey said yesterday Britain has agreed to buy most of New Zealand's export meat and dairy products. He told parliament a seven-year agreement has been signed.

New Zealand agreed to sell Britain not less than 75 per cent of its exportable butter and cheese during the year ending July 31, 1950.

The Dominion agreed also to sell Britain its exportable lamb, mutton, veal and beef until September, 1955, and its pork until 1957.

a backward glance at the future!

NEW BLACK DRESSES

22.50 to 39.50

The little black dress has a big, big future this year because black is playing the major role in the Fall fashion preview. The new Black Dresses have started to arrive in our Ready-to-Wear Department and every day sees more of them arriving.

So many styles bring back memories. The skirts inspired by gored and soft pleats will have an immediate sweep to the back.

Many are fashioned with a plain top that lends itself to your choice bit of jewelry... others have collars and sleeves trimmed with sequin embroidered corded ribbon.

Rows of small buttons give a chic appearance while others have softly draped pleath with flowing ends at the side. A satin bodice and bows finish another semi casual frock... long sleeves tapering gracefully to the waist. Sizes 14 to 22. Priced at 22.50 to 39.50

Black Pencil Line SKIRTS

A versatile skirt which, coupled with your present stock of blouses, jackets and sweaters will provide a whole wardrobe for you. Ultra-smart and exquisitely styled from an all wool worsted herringbone crease in fashionable black. A beautiful slimline silhouette with stride ease both front and back. The waistline neatly fitted with four small darts and zipper fastening. Sizes 12 to 20. Priced at 9.95

COLORFUL COTTON PRINTS

In Dressed and Tailored Styles... These dresses were made to please your eye and your budget... gay, crisp, cotton dresses in floral, stripes and novelty designs in a variety of colors. Choose from this large assortment which offers sizes from 14 to 32. Priced at 3.98

"Holeproof" Luxite PANTIES

A fine quality Rayon Pantie made in a brief style with side closure of elastic. Available in tan and white and sizes small, medium and large. Priced at 1.49 and 1.95

WOMEN'S FOOTWEAR

Keep your feet fresh and comfortable in Comfort Footwear... Smart, flexible form-fitting shoes.

- On the left a fashionable Black or brown Suede Pump with medium low Cuban heel and a good ankle fitting.
- On the right a light weight wedge Black Kid Tie with medium low Cuban heel that will give good service. Sizes 5 to 10. Widths A to B. Priced at 10.50

Pure Silk Head Squares

Ideal for wear over your head or around your shoulders as a headscarf. The Colors range from the classic Red, Blue, green, cerise and turquoise and also a lovely assortment of floral prints in exquisite color harmonies. 24 by 24 inches with brocade trim. Priced at 3.89

NYLON HOSE

Your legs will look their loveliest in a pair of these sheer leg flattering Nylons made by Harvey Woods, 34 gauge, 40 gauge and 50 gauge in two of Summer's latest shades, Mesquite and Costa Rica. Size 8 1/2 to 11. Priced at 1.85

Rayon GLOVES

Your Gloves must be LONG! This season's fashion is feminine to finger-tips with delicate gloves. 13-button length Rayon gloves with closed wrist in dramatic black, white and pink. Sizes 6 to 7 1/2. Priced at 1.50

BERETS

The beret is a perennial favorite with all ages because it is serviceable and practical. A hat with waterproof finish in white, yellow, wine, navy, black, pink, pale blue, royal blue, red and tan. Priced at 79c to 1.25

PROVINCIAL POLIO TOLL REACHES 50

Alberta's total of polio cases jumped to 50 today, with the reporting of five new cases since Tuesday.

A 10-year-old Toronto boy, staying in a Calgary hotel, was stricken with polio.

A 10-year-old Edmonton girl, who has been ill for several days, was diagnosed yesterday as suffering from polio.

The Edmonton cases are the first reported in the city since Tuesday.

The accident occurred at 78 avenue, near 97 street, when Rose Kutheryer ran into a car being driven west on 76 avenue by J. Hawthorne, 3023 76 avenue.

According to witnesses the young man was the kept front fender of the car, and fell under the vehicle.

The car passed over the girl without the wheels touching her, witnesses said.

A neighbor, J. C. Jones, 9221 76 avenue, rushed the little girl to the University hospital.

Hospital officials said today the accident would be kept under observation pending X-ray results.

Liberals Name Day As Nominee

Dr. A. M. Day, pioneer Consonal medical man, was named as the Liberal candidate for the Acadia-Cornwall provincial constituency.

Dr. Day, 61 Gierhart, minister of municipal affairs and provincial secretary, is present representative of the constituency.

Libya Not Ready For Its Own Rule

LONDON, July 28.—(Reuters)—The four-power commission which has been investigating conditions in Italy's former African colonies in its report made public yesterday says that Libya is not ready for self-government.

The foreign minister's council is due to make a decision on the former Italian colonies by Sept. 15.

Matterhorn Takes Three Students' Lives

ZERMATT, Switzerland, July 28.—(AP)—Alpine Guides yesterday found the bodies of three Oxford University students who fell 3,000 feet while trying to scale Matterhorn Sunday with a guide. It was the first fatal accident on the Alps' most famed peak since 1945.

New Citizens for Canada

The announcement by the Hon. James A. MacKinnon in Edmonton that Canada will have 100,000 new citizens by the end of 1948 indicates with what enterprise and energy the minister has tackled the work of his new department of mines and resources which also controls immigration.

Mr. MacKinnon's description of the care that is being employed to screen out the new settlers for this country is interesting.

After applicants for entry are presented by the International Refugee Organization or the Canadian Council for the Resettlement of Refugees, Canadian immigration officials make a personal selection.

In other words, there is no group immigration in the sense that prevailed earlier in the century when entire communities were lifted up from Europe and deposited holo in Canada.

This individual selection is highly im-

portant because it will tend to eliminate the costly immigration mistakes that were made 30 and 40 years and more ago when such as the Hutterites, the Mennonites and the Doukhobors were admitted into the country to form, their isolated communities that have never become Canadian.

Fitness and capacity for Canadian citizenship are two of the essential requirements for settlers under the present immigration policy.

This is exceedingly vital when it is recalled that more than 33 different languages are spoken in Canada and that more than 115,000 people domiciled in this country do not speak either of the official languages at all.

The first and most urgent feature of any immigration policy is that new settlers must be prepared to become real Canadians, in language, thought and behavior.

Under Mr. MacKinnon this condition is being fulfilled.

Germans Have Their Own Ideas

By Dorothy Thompson

Perhaps the counter-propaganda of the president of the 12 German states and the proposals of the American, British and French authorities concerning the creation of a western state, after which, if continued, is not to be a Russian satellite, but a free state. For the Russian blockade of Berlin was in reaction to the Western Allies' announced determination to create a western state.

The Soviet, however, and their Communist spokesmen inside Germany, declared it was a move toward the dismemberment of Germany that it withheld the western zones from the Reich and effectively divided the country into two autonomous areas, that Berlin, by geographic and economic considerations, was the eastern complex of states; and that, therefore, there was no reason for the Western Allies to be in Berlin than for Russia to be in Frankfurt.

The blockade then was started to accomplish this purpose, and the Western Allies, by their refusal to accept the Russian position, have shown that the French are very cool anyhow, but that they have the excuse for their attitude no longer exists.

Assuming that the Russians do not want war—which may, of course, be a false assumption—this time of a unified German state under a German constitution, responds the whole German people to the Russian position. This would not mean yielding to the Russian position, but do-but recognizing a changed situation, which calls for re-organization of the German people. (Copyright by The New York Times and The Associated Press.)

It Doesn't Make Much Sense

Russia's rejection of the international conventions drawn up in Geneva last April to guarantee a free transmission of information is based on reasons that seem to make little sense.

One of the reasons why Russia says she has turned down the proposals is that the conventions fail to "prohibit the dissemination of false and distorted information."

The conventions did specifically forbid the spreading of false news because that is precisely what they were formulated to prevent.

The entire purpose of the conventions was to ensure the securing of accurate information to replace the distorted notions that arise out of rumors when genuine news is made unavailable.

The Russians say, too, that the conventions failed to prohibit the "dissemination of false news."

Sometimes Terror Kills Too

It is time that we reconsider our attitude towards infantile paralysis. Perhaps, if it were to be considered objectively, we would discover that the public attitude towards the disease is one which has been needlessly placed in the category of unreasoning fear.

A doctor of the British Medical Association recently criticized certain campaign drives as being too much dedicated to the cause of engendering fear in the minds of the public as compared to other more malignant maladies. Are we not doing the same thing with polio?

At the World Congress on Poliomyelitis, although doctors admitted that no preventive or cure for the disease has been found, they did, at least, give some true figures on the incidence of the disease.

tion of racial, national or religious hatred or contempt."

Here again such a prohibition would have been absurd because the primary aim of a full news coverage abroad is to build up understanding that will sweep away racial and national contempt.

Another reason for the Russian rejection is that the conventions did not forbid "intervention in matters which are essentially within the domestic jurisdiction of any state."

And there you have the real reason why Soviet Russia opposes a free press. The Soviet system is based on secrecy, upon suppression and upon strict censorship of thinking and expression.

As The Bulletin pointed out in April, this endeavor to secure Soviet co-operation in freedom of information has turned out to be a waste of time. There is no freedom in Russia.

which are reassuring, and which certainly do not point to polio as a foremost killer of children.

In the United States, 2,881 cases of polio had been reported for the year up until last week. On the U.S. population of 45,305,604 of 19 years old and under, this works out to one case of polio in 15,725.

Of these, the medical men report, only one case is lethal and permanent paralysis occurs in about one and one-half percent of the cases. That is, about one death in 1,562,262 of the youthful population, and one cripple in 1,063,618.

The eventual death rate is truly an ideal for any disease, but for the same reason (and let's face it) there are many diseases for which researchers are far poorer, and which are far more dangerous than polio.

LETTERS TO THE EDITOR

To Aid Old Pensioners

Editor, Bulletin.—Now that the threatened railway strike is over and as the union head says, "We have won a great victory," let us see what they have actually accomplished.

First, in order to pay this wage increase, somebody has got to find the money, and who will that be? The public, of course. In higher freight rates which in turn will mean higher prices for all commodities transported.

This means that the pay increase will be largely wiped out besides leading to an extra burden on the consumer.

Next they had the country's welfare at heart, they would have done something to help lower the cost of living by accepting a wage cut, seeing that they have already received an 18 per cent. cost of living bonus.

Have they even given a thought to the retired railway men? They never participated in the cost of living bonus, with a resultant loss of income. Their pensions are now being paid at 50 per cent of their former wages.

In Ottawa a recent note given out in the railway pensioners' association said that railway pensioners averaged \$60 a month, while the average pension for the public, at 50 per cent of the pensioners do not amount to over \$40 a month.

I am a railway pensioner of 18 years' service, for but at the same time I am a taxpayer. My pension is \$35 a month. There are plenty of others who do not receive more than \$25 a month. Can a man and his wife exist in these times on such a pittance? How would these men be able to live on such a pittance?

They have been in the battle and helped to push me down still further, how can they expect their back pay to form a fund to assist them in the financial difficulties of former workers who are struggling to keep body and soul together in their old age.

ANXIOUS

Edmonton.

For Relief of Middle Class

Editor, Bulletin.—Month by month, year by year, people who have been considered with justice, the majority of our society are being driven to the wall. They are being rewarded for their prudence and self-reliance in steadily depressing costs.

These are the people who save for retirement, for the rainy day, for family security, as best they can with the resources at their disposal. They are the people who responded most generously to the call for national unity. They are the people who are being driven to the wall.

The working committee of the United Nations commission for international armaments (those apart from atomic weapons) finally has decided that armaments cannot be reduced to anything less than the level of the armaments made with Germany and Japan.

In short this momentous question, even the effort to enforce world peace, is being temporarily postponed to a later date. The plan is to strike a blow at the war between Russia and the democracies has been settled.

Presumably this problem of enforcing peace will come up in the future, but it never can be solved until the issue of world peace is settled. The world is being driven to the wall.

It is a pity that the world is being driven to the wall. It is a pity that the world is being driven to the wall. It is a pity that the world is being driven to the wall.

For the Poor

Editor, Bulletin.—The condition of a civil servant, retired on a thirty dollar annuity, is indeed critical. A room costing ten dollars before the war now costs twenty dollars. The remaining ten dollars is a harder problem than trying to square the circle.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

It is a condition of servitude that no one can live on bread alone. It is a condition of servitude that no one can live on bread alone.

AS I SEE IT

Thinks New Liberal Head Should Be Younger Man

By Elmore Philpott

"The worst feature about the forthcoming Liberal convention is the universality and unanimity of opinion."

Will the man picked really be the leader or just a stand-in for the old boss?

Whatever the politicians may say, the ordinary people of Canada are not convinced that Mr. King really tends to quit.

His selection for the new leadership is over-shadowed by the probability that the "old man" will continue to remain the "old man" for some time to come.

Stare, Mr. King has said that he was about to retire. But he said that Sir Bernard Horne for unpleasant years before it happened.

If the Liberal party really is in earnest about picking a new leader, then it will not foot around with foot-draggers like Mr. St. Laurent or Jimmy Gardiner.

"The former is a real gentleman, but it is impossible to make him out like him."

But both these men are past the age when it is wise for a party to intend to survive to give them the top job.

Of course if the secret idea is for a coalition with the Conservatives, that is, for the transformation of the Liberal party into an advanced age for the last leader would be desirable.

almost insuperable handicap in Canadian public life, for certainly Mr. Abbott and even Mr. Claxton would be held in the shadows of St. James street.

Whatever the politicians may say, the ordinary people of Canada are not convinced that Mr. King really tends to quit.

His selection for the new leadership is over-shadowed by the probability that the "old man" will continue to remain the "old man" for some time to come.

Stare, Mr. King has said that he was about to retire. But he said that Sir Bernard Horne for unpleasant years before it happened.

If the Liberal party really is in earnest about picking a new leader, then it will not foot around with foot-draggers like Mr. St. Laurent or Jimmy Gardiner.

Smiles

Edmonton.

A teacher received a letter from the mother of one of her pupils.

"Dear Miss. Please don't give Tommy any more homework. That sum about how long would it take a man to walk 50 times round Trafalgar Square would make his father to lose his mind. And after that, you say, 'You marked the sum wrong.'"

Feeling in rather a lively mood one evening during the festive season, the speaker of the evening read a really raw-looking recruit and steadily pulling his hair out.

But the "cocked" remained quite calm and collected.

"Cripes man," burst out "Nob-by" Clark at last. "Can't you give me a little more to do? You see, in the middle of the night, I'm a tenant in a lunatic asylum."

As two files were enjoying a moment's respite on the ceiling, one said:

"How do those human things like to be?" asked the speaker.

"Well," said the first, "they spent a lot of money building a house for the speaker of the evening, but they don't let them go and walk on the floor."

The Beautiful Addison Model "14" Combination Radio-Phonograph

The Addison "14" is more than a good radio and a good automatic record player encased in a beautiful matched pin stripe grain walnut finish cabinet. It is a sound engineering achievement for musical entertainment. By co-ordinating the tube assembly, record player and sound chamber in a special new electronic alignment, Addison has achieved reproduction of speech and music in its true perspective from the whisper of a wood wind to the mighty volume of a full symphony.

Radio: Tube super-heterodyne with standard and short wave bands, volume control with base compensation for low level, continuously variable tone control, large edge lighted slide rule dial with attractive antique bronze ensethcon.

Phonograph: Automatic record changer. Record capacity, 10 12-inch records; 12 10-inch records. Pickup type—crystal with semi-permanent needle.

Top Balloting**

BULLETIN

8 EDMONTON BULLETIN, Wednesday, July 28, 1948

By Stan Mohr
(Bulletin Sports Editor)

A pair of ballplayers who do their stuff for sponsor Brant Matthews' New Edmonton hotel Eskimos dominated the voting for THE BULLETIN'S Big Four All-Stars, balloting being done by the players of the league.

Pitcher Ed (Lefty) Belter and shortstop Frank Gonzales are the stars to show at the head of the parade. Each received a total of 36 votes to equal catch players in the Dream Team.

The 15-man squad consists of six Esks, a quartet of Jim Gibson's Calgary Buffaloes, including manager (Ed) Tommie, and two members of the league-leading Purty aggregation and a lone Cub, third-sacker Ray Enjain.

... second base in a walk.

... From the Dugout

Elsewhere on this page is carried THE BULLETIN'S Big Four All-Stars, as selected by the players themselves. The team is headed by catcher Lefty Belter, who has been a mainstay of the team since he was a rookie in the major leagues. He is a powerful hitter and a good fielder. The other players are also of high caliber. The team is expected to be a formidable one.

superior of Brooklyn farm clubs, plans to visit Edmonton in the near future. The team is expected to be a formidable one. The other players are also of high caliber. The team is expected to be a formidable one.

Catch Places on Big Four Baseball League 'Dream Team'

Peters Potter Zooms With Boston Braves

NEW YORK, July 27.—CP—Nels Potter may yet be grateful to Connie Mack for the fit of irascibility that prompted Philadelphia Athletics' venerable manager to fire Potter from the club's pitching staff. It looks as if the veteran left-hander has landed on his feet.

Since Mack gave Potter the heave-ho last month, accusing him of laziness in his pitching duties, the old-timer has landed a starting job with Boston Braves. And since Potter joined the Braves, they've zoomed into a healthy lead in the National League.

At the time, it looked as if Potter might have been traded out of a World Series—now it seems he's probably been traded into one. Just to show he took a personal interest in his club's future, Potter threw a shut ball and knocked in the winning run Tuesday night in the Braves' downed Pittsburgh Pirates 5-1. Ralph Kiner, 20th homer produced the only Pittsburgh hit, while Phil Masi and rookie Clint Conner hit four baggers for the winners.

HAPPY FOR LO
Brooklyn Dodgers regained second place by scoring two runs in the ninth inning to nip St. Louis Cardinals 3-2, passing the Red Sox by a half game. One of Terry Moore's rare errors in the Cardinal outfield set off the winning rally.

Larry Jensen's 12th victory and second straight shutout enabled New York Giants to celebrate Lou Dierker's home debut by beating Cincinnati Reds 5-0. Jensen's sixth job gave him a string of 23 scoreless innings.

Eddie Sauer's first appearance as manager of Philadelphia Phillies wasn't as successful. The Phils got two runs on homers by Johnny Updegrave and Andy Seminick, but blew the game when pinch-hitter Bob Schefeling singled home the winning run in the 11th inning. Chicago Cubs 3-2 victory. Cleveland Indians, who surrendered the American League lead to Boston Red Sox in a disastrous series last week, bounced back to trim Philadelphia Athletics 10-1, lighting up the first division race.

RED SOCKS KEEP MOVING
The Red Sox walked Detroit 10-0 to increase their first-place margin over the Indians and Athletics, who were two percentage points apart. The T-bos, who have played nine games, lead the Athletics by a two-point margin in the standings, although they trail Philadelphia 10-1. New York Yankees held fourth place but lost to St. Louis Browns 4-0.

The Mackmen tagged Bobby Feller freely, with Sam Chapman arching him for a grand slam homer, but superior Cleveland pitcher, Walter Johnson, kept the Sox from scoring more than one run. The Sox lost 10-0 to the Yankees.

Vern Mohs Favored in City Amateur

Only 15 players remain in the running for Henry Mohs' city amateur golf championship, but they appear to resemble the cream of Edmonton shotmakers. In other words, it is still no picnic trying to pick a successor to the Humberdale Club pro.

Vern Mohs still looks like the No. 1 choice. He has played the best golf this year and it would not be surprising to see him winning the title. He has played the best golf this year and it would not be surprising to see him winning the title.

He has played the best golf this year and it would not be surprising to see him winning the title. He has played the best golf this year and it would not be surprising to see him winning the title.

Monarchs ON SPORT

By STAN MOHR, Editor

Did They Also Get Bonds?

Midweek musings and late at night—true—as reported—that some of the bonds flicked from the safe in the Exhibition office following Flyers' opening game last October were found in the east the other day. . . . It will be remembered that a party—a party—made off with better than \$5,000, largely the cash receipts from the Edmonton-Calgary WHL. . . . For our part we hadn't heard that any bonds were included in the haul. . . . At hand is a baseball program out of Vancouver's Capilano stadium, included therein being an interesting yarn on Umpire Harry Ornest of our town. . . . Author is Ken (Vancouver Province) McConnell. . . . From the evidence, it appears that Ornest is making rapid strides in his first complete season as an arbiter in organized baseball. . . . They rate him one of the best "guessers" in the Western International circuit, generally looked upon as the swiftest of all the class B loops. . . . Whatever became of Ray Arjo, sports officer of the U.S. Air Base for several of the war years? . . . In case you haven't heard the Olympic record for the 100 meters is 10.3 seconds, one-tenth of a second of the world mark.

Speaking of speed-balls, latest National Hockey League release lists once-upon-a-time junior league swiftness, Lou Trudel, on the voluntarily retired list. . . . He was league with Canadiens last season.

'Cool Papa' in Baseball 'Bible'

'Cool Papa' Bell, aging—but still lively—Negro outfielder who showed here last month with Kansas City Monarchs' farm club, once in for mention in the current edition of the Sporting News. . . . He is linked with the late catcher John Gibson and Stach Paige. . . . It is true that certain parties have urged John (The Man) Ducey to apply for the position of general manager of the Edmonton Exhibition Association. . . . Charlie Wilson, who has held the spot for a number of years, recently sent in his "quit" notice. . . . Among summer visitors to Sylvan Lake is Lou Gehrig, the NHL star who handled Calgary Buffalo juniors last season. . . . Suggestion is that sprightly Stu Hendry, late of Wetaskiwin Canadians, has juicy offer to take over the goalkkeeping chores for Tommy Anderson's Okotoks juniors this coming season. . . . Earlier reports had the Calgary puck blocker pointed for either Leif Erickson or Kansas City Monarchs. . . . While regretting the circumstances under which "Scotty" Melville took the late Dave Dryburgh as sports editor of the Regina Leader-Post, the appointment will be well received all over the west. . . . The man who had ringside accommodations at Dieppe is very popular.

Add time-marches on department: Vance Longden, son born to Johnny Longden's first wife while the great rider still operated hereabouts, graduated the other day from San Rafael (Calif.) Military college. . . . Vance is 18 years old by this time.

Suot Sultan in Cinema

The Babe Ruth story is in its opening run in New York this week. . . . Here's a flicker that should have everything for the sports fan, despite what Hollywood may have done to spoil the real life version. . . . Morris Hawkey's teamates on the Edmonton Motors Cubs have pooled financial resources to present Dale Francis, recent newcomer to the Hawkey household, with a gift of a new car. . . . And who should be behind the movie to remember the boy? Goldstick. . . . There's a good chance that Regina Caps' Ab McDougall, who paced the WHL point parade for quite a spell last winter, will hook on with a club in the American circuit. . . . He's being chased by at least one entry of Maurice's expanding loop. . . . Now that Calgary wrestling addicts have given the green light to the gal "rasslers" can there be any doubt that Barnum and the right light when he got off with his famous crack about a sucker being a sucker. . . . Tinker to Tinker to Tinker to Chance—and now the last of the great trio has passed on with the death in Florida yesterday of Joe Evans.

A Tuesday ball-session with Wayne Adams and Johnny Bettey resuscitated such names as Harley Miller, "Long John" Guleson, "Cap" Wrigglesworth, Mike Miller, George Leggett, Alex Kampouris and more of Adams' former baseball-basketball associates. . . . In the days when Edmonton was referred to as 'the 49th state'.

Seeded Stars Advance In Dominion Finals

TORONTO, July 28.—(CP)—Tennis players in the Canadian championships fought a losing battle Tuesday as rain forced postponement of half the 100 scheduled matches and turned the courts into wading pools.

Seeded players advanced with no upset. All but one of the third round men's singles matches were played as scheduled, but doubles play was cancelled when rain fell in the afternoon.

Henri Rochon, of Montreal, seeded first, swept Rene Bessy, a fellow townsmen, from the court in the first round. Don McDermid of Ottawa had little trouble in defeating Bruce Harrison of Toronto, 6-1, 6-2. Seeded second, Don came up with good depth of service and an excellent back and forehand game. Jim Macdonald of Montreal who is seeded third, played steady tennis to win from Roger Waters of Toronto, 6-3, 6-3.

Severe loss of Norway, who is seeded fourth, met with opposition in the first set with Dick Dickinson of Toronto but speedily put the game away in the second. The scores were 12-10 and 6-3.

J. J. Desjardins of Montreal avenged his defeat last year by Jack Hopkins by defeating the Toronto player 6-3, 6-3. Desjardins, seeded seventh in national standing, is not needed in the tournament.

EDFA Meeting

A meeting of the Edmonton and District Football Association council and club representatives will be held in the Memorial Hall Friday evening at 8 o'clock. President Tom Green will be in the chair.

A turtle may correctly be termed a tortoise, and vice versa. HENRY ROCHON — Says Nix.

LOOK, NO SHOES as S. Mahallah, left, and S. Nandy of India's Olympic soccer team work out at Imber Court England, in preparation for coming games. On hard ground, all members of Indian team, except the goalie, play in their stocking feet.

Politics Clouding The Olympic Scene

LONDON, July 28.—Political mysteries—the exclusion of an Italian communist newspaper man and the unexpected absence of an athletic team from a Russian IOC satellite country—raised unwelcome complications for Olympics officials Tuesday.

The International Olympic Committee issued out a political difficulty by confirming a ban by its executive committee on Israel's participation in the Olympics on the grounds that the new state was not a member of the Olympic family. . . . The ban was issued after the Israeli Olympic delegation had been asked to walk out if Israel took part in the Olympics.

Still to be dealt with was a fourth headache—a request by Commandant J. P. Chisholm, chief of supplies for the Irish Olympic squad, that the track team from his country be ruled out because it lacked the blessing of the Irish Olympic Committee.

CORRESPONDENT BARRED Tommaso Giglio, correspondent for the Italian Communist party, was barred from entry into Britain. By his own story, printed under screaming headlines in his own paper, Giglio met him at Dover, quizzed him several hours and sent him back the way he came—by boat across the channel.

Home office officials in London who investigate immigration and police activities and the British embassy in Rome confirmed that Giglio was welcome in Britain and that he had indeed been barred.

Meanwhile, Romanian authorities disclosed that a team of 25 from that nation would not compete in the London Olympics. . . . It was learned that Romanian sports leaders decided last week not to send their representatives to the games because of failure of the Olympic Organizing Committee to accede to Russian and East European requests for seats on the committee.

The beds reserved in the West Drayton Olympic camp for 14 Bulgarians have also remained unoccupied. . . . Olympic officials said their absence is a "complete mystery" and Bulgarian legion spokesmen said they were not needed.

THEO DUBOIS ABSENT FROM HENLEY ROWING

WINNIPEG, July 28.—(CP)—Theo Dubois, veteran Winnipeg sculler, said Tuesday night he hadn't planned to enter the 1948 Canadian Henley which opens at St. Catharines, Ont., today.

Commenting on a report that no post entries would be accepted, he explained that he hadn't counted on competing because "there wouldn't be much sense to it."

"It's only a repetition of the Olympic trials. I've beaten all the guys who'll participate so I wouldn't have anything to gain and it wouldn't get me a berth on the Olympic squad—the one thing I've really been shooting for."

"Besides," added the Belgian-born Winnipegger who earlier was turned down in his bid for an Olympic berth, "I've too much work to do here and can't spare the time."

Protesting the argument was the following incident. In the eighth inning Buffalo Shortstop Charlie Strouger drew a base on balls from Don Jones, Cub hurler. The pitch got away from Catcher Don Buono and Strouger, who was in a hurry to leave, proceeded to throw a second ball in the meantime Umpire Jim Kelly, at the request of Buono, introduced a second ball into the play and at the same time ordered Strouger back to first base. Cubs won the game 5-4.

Bulls countered—and rightfully so—that Kelly erred in handing a second ball to Buono as well as ordering Strouger to retrace his steps.

In other words, in order to protect the interests of the Cubs, as league head, Mr. Roche was forced to the decision that Bufo's objection, regardless of its validity, had not been properly filed.

KINGSTON, Surrey, England.—(CP)—Promoter of a local at Kingston last week was Mr. Littlewood. A Mr. Bigwood replied.

Heavyweight Hopes Jockey for Position

Freddy Mills' Great Upset Causes Free-for-all Race

NEW YORK, July 28.—(AP)—The showman heavyweight crop jockeyed for position Tuesday in the free-for-all race for Joe Louis' title following Freddie Mills' upset victory over Gus Lesnevich.

In one day the entire situation has changed. Where Lesnevich once was the key to the situation, now there was only confusion on all sides.

Al Strauss, acting promoter of the Twentieth Century Sporting Club, once inwardly sure he would be able to lure Louis from retirement for a September date with Lesnevich, was left with empty hands. He has no Louis. Now he has no Lesnevich.

Telephone calls to various spots on the globe were Strauss' first moves toward setting up an elimination tournament comprising 10-rounders at the Yankee Stadium, Sept. 22. To date nobody had been signed.

CHARLES FIGURES Enard Charles, ranking light-heavyweight contender from Cincinnati, figured in Strauss' plan. Jake Mintz, Charles' manager, was summoned to a conference later in the week. It is likely he will be offered a date with Lee Savoldi or Jerry Joe Walcott. A Walcott-Mintz palling might be the other 10-rounders.

Strauss has hopes of luring Mills to America for an overseas scrap. He is likely he will be offered a date with Lee Savoldi or Jerry Joe Walcott. A Walcott-Mintz palling might be the other 10-rounders.

Bale Culpin, American representative of Ted Broadbent who manages Mills, echoes the challenge from England. "We want Louis," Culpin will advise Broadbent to skip any elimination tournament and wait for Louis, if he should decide to come back. Louis reportedly insists he never will change his mind about his retirement.

As of now, Charles Walcott, Mills, Bakel and Savoldi are in the top row, not necessarily in that order. Eddy Meila Bettina, suffered in 50 seconds by Lesnevich, is making a comeback and there are stories that Billy Conn may be back.

BASEBALL 6:30 p.m.—South Side vs. North Edmonton at North Edmonton, and Westmount vs. Cloverdale at South Side Athletic Grounds. 6:45 p.m.—Canadians vs. South Side at Clarke Stadium.

8:00 p.m.—Eaks vs. Cubs at Hien-fewer. FASTBALL 7:00 p.m.—Burns vs. South Side and Walk-Ink vs. Morfons at Kingsway Park. 7:15 p.m.—Gasso vs. Saints at South Side Athletic Grounds.

they knew nothing about the whereabouts of the team. RUSSIAN BOYCOTT It hardly seemed that their absence was a boycott of the games, although Russia, their political enemy, was not invited. The Soviet Union did not organize an Olympic committee, which was the requirement of any invitation.

However, other teams from behind the "iron curtain" are here. Czechs, Poles, Hungarians and Yugoslavs have been in training in London camps for as long as a week. The Irish sport, which will be heard by the IOC tomorrow, arose when the Irish Olympic Council wanted Spain's track team from all of Ireland and the International Committee said it had to confine its talent hunt to Eire.

The Eire Amateur Athletic Union joined the IOC and entered 11 runners, who have come to London. The Irish Olympic Council blackballed them, but sanctioned competitors in boxing, basketball, cycling, fencing, soccer, rowing, swimming and yachting.

On Thursday the Westmount Cloverdale dual moves to Clarke Stadium and North Edmonton will defend its position at the latter's home field Friday.

Canucks Face Tough Sprint Competitors

LONDON, July 28.—(Reuters)—The draw for the Olympic track events announced Tuesday night put Jimmy O'Brien of Toronto, Jack Parry of Windsor, Ont., and Ted Higgins of London, Ont., in heats 2, 3 and 4 respectively in the 100 metres dash.

O'Brien has Mel Patton of South Carolina against his opponents while Parry has Trainer of Australia against him. The first two in each heat will qualify for the second round.

In the first heat of the 200-metre dash Higgins will meet the British ace, Herb McKenzie of Jamaica, while Parry, in heat 10, will have Britain's McCorquodale as an opponent.

Don Pettie of Calgary is in heat 11.

The Canadians were needed so they didn't fall in the same heats. In the 400-metre hurdles Bill Larchowich of Chatham, Ont., is in heat 6 along with Jeffrey Kirk of the United States.

Canada drew heat 2 in the 1,600-metre relay along with Jamaica, France, Iceland, Chile and Turkey.

Four British Columbia contestants drew separate heats in the 1,500 metres run. Cliff Sandhu of Victoria is in heat 1, Jack Hutchins of Vancouver in heat 2, Bill Parrell of Vancouver North in heat 3 and Jack Hutchins of Vancouver in heat 4.

Jackie Paterson, British bantamweight titleholder, in the fourth round of an overweight 10-round featherweight knockout, knocked out Tuesday night.

CHAMP KAYOED BIRMINGHAM, England, July 28 (AP)—Jan Machetink, Belgian featherweight champion, knocked out Tuesday night.

'NO FABULOUS PAY IN CLASSLESS SOCIETY'

MERRICKVILLE, Ont., July 28.—(CP)—A society dominated by Christian doctrine would not allow Hollywood actors with fabulous salaries, nor millionaires, Rev. Roland Badger of Montreal told the Rideau summer conference here.

"Today the law of supply and demand allows the individual to get as much as he can regardless of his relationship to other people," the rector of St. Cuthberts Anglican church told the three-day-old interdenominational study group.

"In a society dominated by Christian doctrine there could be no such thing as millionaires, nor such a thing as Hollywood actors or sports champions getting the fabulous salaries they do."

"A classless society," added Mr. Badger, "was the Christian ideal and it is only in a classless society that we can practise a right social and human relations."

Admission of Nfld. As Province Seen

Growing Belief in Ottawa Government Will Take Step

By George Kitchen

OTTAWA, July 28.—(CP)—There is a growing belief in responsible quarters here that the government is going to take the historic step of admitting Newfoundland into the Canadian Confederation as Canada's 10th province.

Preliminary ventures in that direction came yesterday when the Federal cabinet opened an informal discussion of the results of last Thursday's Newfoundland referendum.

Prime Minister Mackenzie King said in a statement that it would seem from the referendum results that there would be a substantial majority in favor of confederation with Canada.

But, Mr. King added, the government could make no official statement until the final official results had been communicated to Ottawa. This was expected before the end of the week.

In the absence of an official report from Newfoundland, the cabinet had before it only the unofficial totals showing that Newfoundlanders in all districts except Labrador had cast 77,794 votes for Confederation against 11,787 for responsible government—a majority of roughly 6,600.

A responsible source said the government is awaiting a report on the referendum from Sir Gordon Macdonald, governor of Newfoundland. This may take several days. Until then, the cabinet's discussions must be on an informal basis. He said that the government was extremely cautious in their reaction to the referendum, in keeping with Canada's attitude since confederation.

Man Who Kidnapped Il Duce Flees Prison

FRANKFURT, July 28.—(AP)—Scandalized Otto Skorzeny, decorated kidnapper of Mussolini, escaped from a German prison camp Sunday night, German prison officials announced.

Police throughout the United States were alerted to the alert to watch for him. The giant former SS officer was being held at Darmstadt prison camp by German officials for trial before a denazification court. He was freed last September by a United States war crimes court when he was tried on charges of sending German troops into combat dressed in American uniforms.

Skorzeny, a lieutenant-colonel in Hitler's elite Guard, has made "escape" his middle name. In 1943, on Hitler's orders, he engineered and personally carried out a daring parachute rescue of Mussolini who was being held by the Italian government of Marshal Badoglio.

When the war was over he was captured by the Americans. He tried to escape three times from Dachau internment camp while awaiting trial on war crimes charges. His men were alleged to have participated in the Malmédy massacre in which United States prisoners of war were moved down during the battle of the bulge. During that battle Skorzeny's men were reported to have had orders to kidnap Gen. Dwight D. Eisenhower. Skorzeny had denied that story.

Shaw Accused Of 'Cheating' Vegetarians

LONDON, July 28.—(AP)—George Bernard Shaw, vegetarian and playwright, acknowledged today that he once took liver injections.

But he said it was years ago and "they very nearly killed me." In an open letter reported by newsmen, Shaw, 82, told the Editor of the American Vegetarian Magazine had accused Shaw of "cheating" by taking such injections.

Shaw, who was 92 Monday, was telephoned at his home in Ayot St. Lawrence for comment. He said he had resorted to liver injections "when I got pernicious anemia at a very advanced age."

He was told that Editor Gould had demanded he "discontinue masquerading as a vegetarian."

"It's my business," said Shaw, "to bother about what I eat or what I don't."

Grey Tunny, former heavyweight boxing champion, visited Shaw today for the first time in 12 years.

"He hasn't changed a bit in the 12 years," Tunny said. "His mind is one of the finest in the world and he'll still be a magnificent conversationalist."

Thousands Greet 'Ruth' Premiere

NEW YORK, July 28.—(AP)—The world premiere of the "Bao Rut" story was held Monday night at the Astor Theatre and the Bantam himself made a special trip down-town to see himself portrayed on the screen.

Approximately 1,200 persons were invited to the opening but thousands more crowded the Times Square area in front of the theatre to catch a glimpse of the celebrities and the famed clapper.

Ruth, who has been ill and has undergone several operations, was greeted with a tremendous roar as he stepped from his limousine on the arm of the world's most famous companion. He was dressed in a dark blue suit and wore a white cap which he waved to the crowd.

William Bendix portrays Ruth in the picture.

U.S. Army Will Withdraw Alaska Troops In Winter

WASHINGTON, July 28.—(AP)—Gen. J. Lawton Collins, deputy chief of staff, said yesterday that the United States Army plans to withdraw the bulk of its combat troops from Alaska when cold weather sets in.

Lack of adequate housing is the reason, he said. It would be three years before adequate housing would be ready. The construction season in Alaska is only about three months, he said.

Army representatives have told Congress that the United States now has about 7,000 combat and service troops in Alaska and proposes to increase this to 15,000 under the expansion program. This does not include air force strength.

Herrenton Breeder

Winner At Regina

REGINA, July 28.—(CP)—Livestock judges dug into entries in earnest yesterday at Regina's Exhibition where names prominent in Western Canada livestock producers dotted the champion list.

H. E. Sells of Calgary won the Percheron Junior Championship with Starlight, Cleat, and the champion in mare, A. D. Doves of Herrenton, Alta., took the junior mare while Bert Beattie of Delmar, Man. won the Shropshire ram championship.

Why Do Gals Live Longer? Scientists Still Baffled

By PAUL F. ELLIS

NEW YORK, July 28.—(BUP)—The medical men don't know why women live longer than men but they are working on it.

Dr. J. Murray Steele, professor of medicine at New York University, said today they are working on three theories, none proved scientifically. He was skeptical regarding the theory that men work harder than women, and therefore die earlier.

Dr. Steele was commenting on U.S. public health reports that the average life span for American men had climbed to 65.1 years and the women to 70.3 for an overall average of 67 years.

The government agency attributed the better control of infectious disease as causing the increased life span.

As for the difference of some five years between male and female, Dr. Steele listed these three possibilities:

1.—That men work harder and are exposed to more occupational hazards.

2.—That men develop hardening of the arteries earlier in life.

3.—That men have a different hormonal balance than women.

Dr. Steele said that there are no scientific statistics, definitely showing that men work harder

than women or are exposed to more hazards.

"After all," he said, "there are statistics that more accidents occur in the home."

He said also that medical science was not sure that men developed arteriosclerosis, or hardening of the arteries, before women. Right now, Dr. Steele is conducting a research project along those lines.

As for the No. 3 speculation, Dr. Steele said it may have some bearing. It might be, he said, that women have a better hormonal balance—that is their makeup enables them to attain a better revitalization or replacement of tissues.

Manitoba Coalition Faces Test In Fall

WINNIPEG, July 28.—(CP)—First test of Premier Stuart Gordon's coalition government will be held this fall in a by-election at Minnedosa, Man. It was reported here yesterday.

The by-election will be held to fill the seat vacated last week by Dr. E. J. Boudreau, Progressive Conservative, in a member, who resigned to accept a civil service position.

Without ceremony, Lethbridge's new \$22,000 City Hall opened for business yesterday, the move from the old quarters having been accomplished during the week-end.

The reinforced-concrete structure is brick-faced and fireproof throughout. Employers will spend much of the next two days sorting out and arranging files disarranged in the move.

Two Applicants For Every Job in Canada

OTTAWA, July 28.—(CP)—A better supply of workers than a year ago was reported by the Labor department today in its monthly review of employment conditions. The department said seasonal industries are making heavy demands on the labor force but acute labor shortages are only regional.

There were 10,000 applicants for work and 51,000 known jobs available on July 15, national employment service records showed. On June 17 there were 119,000 applicants on the employment service books and 63,000 jobs to be filled.

SCHOOL FLOOD

Closing of schools for vacation released an estimated 12,000 students into the labor market, some of them seeking permanent work and some only looking for holiday jobs.

Activity in agriculture and construction continued to expand. A growing supply of building materials has speeded construction with the result that most workers in trades are employed. Efficiency has increased.

The tourist trade is stimulating employment in the transportation and service industries and employment is moving in more stable than usual at this time of year.

"In mining many firms have acquired immigrants who are turning out to be very regular workers," said the department. The prairie provinces had 16,000 unemployed and 10,000 vacant jobs on July 15, a more adequate labor supply than last year partly because

of the arrival of displaced persons and partly because poor crop conditions in many areas have reduced the demand for farm help.

Farm workers have not shown much interest in the usual harvest movement to Ontario, since many have taken jobs as unskilled building laborers where wages are high.

Coal miners need men but labor turnover and absenteeism are declining.

The Review commented that building is extensive and remarked that there would be a shortage of skilled men if deliveries of steel, lumber and other materials "were not somewhat limited."

The spread between unemployed workers and available jobs was much greater in the Pacific region than on the prairies. British Columbia had 19,000 persons looking for work but only 5,000 unfilled jobs.

Unfilled applicants (unfilled vacancies in brackets) in western national employment service offices at July 15 were: Calgary, 1,611 (1,288); Edmonton, 1,852 (1,654); Regina, 827 (614); Winnipeg, 6,390 (5,013); Port Huron, 348 (181); New Westminster, 5,239 (1,714); Vancouver, 12,999 (2,060); Victoria, 1,557 (386).

Push-Button Farm Makes Farmer's Chores Vanish

MADISON, Wis., July 28.—(UP)—A farmer's farm will be much easier on the push-button farm of the future.

University of Wisconsin scientists have set up a model electrically-operated "farm of tomorrow" that cuts today's farmer's time and labor some 30 per cent.

The project started when university scientists found that farmers in Wisconsin's dairy belt use more than 50 per cent of the average Wisconsin farmer's work consists of daily chores. And 41 per cent of that time, they found, is concentrated in the dairy barn.

The University got a grant of \$10,000 from the Wisconsin Utilities Assn. to look over a 16-acre farm near Madison and went to work.

That was two years ago. Now the model farm is on display, showing farmers how to get many of their chores done by merely pushing a button.

For example, cow stalls are kept clean by paddles on a moving chain that sweep the pens. When the cow needs food, slugs are brought down through an electric chute to a feed cart. The cart is pushed in from the cow, measures the feed and throws it in the manger.

A foot-operated lever opens doors into the milk house so the farmer can enter it with full milk pails in both hands.

In the hay mow, warm, dry air from a ventilating fan is forced through steel hay for curing. Tests prove artificially dried hay

produces more milk than field-dried hay that has been soaked with rain.

The model farm also comes to the aid of the farmer's wife. Kitchen drawers and shelves have roller bearings so they can be pulled out without lifting.

The electric auto, refrigerator and mixer are standard equipment, along with an automatic dishwasher.

The utility room near the kitchen is lined with clothes sorting bins, an electric washer, ironer and clothes dryer—placed at a convenient height. A home freer and canning equipment stand near a forced-air ventilator.

The home is arranged to keep the farmer from trampling mud from the fields all over the house. He enters a hallway that has a washroom off it. Or he can come in through the basement, where there's a shower.

The Edmonton unit of a very large Western Retail Organization has several excellent positions open for young men who are aggressive and anxious for unlimited opportunity.

If you have reached maximum with your present position and are desirous of increasing your earnings plus assuring a future, we have a suitable opening for you.

A history of experience and success in retailing (particularly in Shoes, Men's Wear, Home Furnishings, Ladies' Wear or Jewellery) will give an applicant a high priority.

Election Campaign Waxes Warm Here

It was "hammer and tongs" over the air Tuesday night as Elmer E. Roper used his radio time to attack the Social Credit government for going "straight Tory", and Hon. David Ure, provincial minister of agriculture, assailed the CCF, and defended government policy.

New Pulp Mill Waits Okay From Gov't

Construction of an \$18,000,000 pulp and paper mill at Red Deer, by Alberta Pulp Mills Ltd., awaits only the green light from provincial government officials on timber reserves, according to officials of the city of Red Deer today.

Government officials explained that the department of lands and mines, which administers Alberta's forest reserves, must be satisfied as to reforestation programs from issues of timber reserves.

They also pointed out that two Indian reserves are in the section for which application for a timber reserve has been made, that some of the land has been occupied by settlers and has been set aside for settlement and that part of the area for which application has been made are already under reserve to other operations.

All these factors will have a bearing on the government decision, the department of lands and mines said today.

Reforestation program is being prepared according to N. H. Simpson, vice-president of Cellulose Engineers Ltd., of Seattle, parent company of the Alberta firm.

He assured government officials Indians would not be molested, but would be invited to share in the development of the area.

Merlin Hough, well known Alberta timber operator, is president of the new firm, and said the mill when in operation, would use spruce, pine and poplar for the manufacture of Kraft paper and pulp.

More Buildings To Be Erected

A \$60,000 warehouse, and an apartment block costing \$11,000, will be erected in the city as the result of two land sales made Tuesday by the city land department.

George R. Oake, city merchant, purchased the property at 1024-1122 street, for \$6,000, as the site of the warehouse.

Roland B. Outhurst, 9618 106A avenue, purchased the fifth lot south of 154th avenue, on 128 street, as the site of a four-unit apartment building.

Apart for 60 Years Couple Re-United

Separated since they were babies in Quebec, a brother and sister met each other for the first time in 60 years, in Edmonton Monday.

Henry McCloy, 13608 94 street, said "hello" to his sister, Mrs. Katherine Veronica McCloy, Blue Lake, Cal., for the first time since they were parted at St. Phillips, Quebec, in 1884.

At that time, Mr. McCloy was four and his sister Katherine was two. Separation was caused when Mrs. McCloy died, and the father took Katherine to live in California.

Calder is going ahead with plans for a marriage with Miss McCloy, with Mrs. Driscoll directing the ceremony.

HERE IN 1914 After learning the railroad business in Eastern Canada, Henry McCloy came here in 1914, and is now manager of a plant which manufactures auto springs.

Separation was caused when Mrs. McCloy died, and the father took Katherine to live in California.

Calder is going ahead with plans for a marriage with Miss McCloy, with Mrs. Driscoll directing the ceremony.

WHO SAYS it's the manly art? Lula Cantora, left, of 9296 110A Avenue, is just three years old, but she's all set to take a round out of sister "Cookie", five, at McCauley playgrounds park. Jack Hopkins, supervisor of the park is giving minute instructions to battlers before going around.

Elks Praise Canada's Plan For Health

Grand lodge of the Benevolent and Protective Order of Elks Tuesday endorsed the action of the federal government in allotting \$20,000,000 annually for five years for the promotion of various health activities in the Canadian provinces.

Special gratification was voiced for the \$300,000 being set aside annually by the federal government to co-operate with the provincial governments in the fight against cancer.

Dr. Stanley told the convention that \$10,000 had been voted by the National Research Institute in grants to 40 young doctors to further their studies at cancer research centres.

He also said that Canada was spending considerably more, per capita, on health measures, than the United States. The Canadian expenditures, he said, amounted to 35 times as much on public health, five times as much per person on hospital construction, 35 times as much on public health, five times as much on cancer and 16 times as much on mental health.

Assistance of all members of the BPOE was pledged to the development and education of the public along health lines.

"Edmonton is a boom town," said one local film-house operator, who quoted a theatre-chain executive as saying the theatre business in Edmonton is "far better" than in most eastern cities.

Reports also indicate that movie attendance south of the border is dropping off because of higher living costs.

Extensive Recreation Plan In Full Swing in Edmonton

Delinquency Charge Nets Two-Year Term For Man

A two-year term in Prince Albert penitentiary was given R. Henkle, Jarrold, Alberta, on a charge of contribution to delinquency of a juvenile, at a special session of police court held Tuesday night.

The offence concerning Henkle's 15-year-old stepdaughter was said to have occurred at Jarrold, on or about July 15.

Coal Production Shows Increase

Alberta's coal production increased more than 35,000 tons, to 625,331 tons, in June this year, as compared to the same month last year, according to a report issued today by John Crawford, chief inspector of mines for the provincial government.

Production in June a year ago was 591,250 tons.

Output for the first six months of 1948 was 467,781 tons, lower than for the same period in 1947 however. This was due to the coal miners' strikes which closed many Alberta mines this spring.

Eastern Laborers Arrive September 1

Harvest will start to arrive in Alberta about September 1. R. M. Putnam of the Alberta Dominion-Provincial Farm Labor committee said today.

He said more than 100 easterners were expected to help in relieving farm labor shortages, now being reported from different sections of the province.

At the present time the need for farm help is being most urgently felt in southern Alberta, where cutting hay operations are cutting into the supply.

Problem of playmates for before-school-age kiddies, and for older youngsters in the long summer vacation, is being rapidly solved by the Edmonton Civic Recreation Commission.

The summer playground program on 13 supervised playgrounds, and four tot-tots, is really rolling in high gear these warm summer days.

John Farina, executive director of recreation, reported recently that more than 10,000 children have utilized facilities at the supervised playgrounds this summer.

New grounds are being opened all the time, and older ones are being improved with additional facilities.

Latest playground to swing into action is the Westwood area, north of 118 avenue on 61 street.

Diane Houston is director at this playground. A wading pool is in the process of being constructed.

NO SHADE YET This is the sunken field of the city, as trees just recently planted are not in the shade-giving stage yet.

A big picnic for all children is planned for August 26 at Victoria Park. An inter-playground track meet is scheduled for Clark Stadium on August 24.

In addition there will be a display of handicraft from each playground in the Recreation Buildings on September 3. Other special events are also being scheduled on a well-planned demonstration program.

Highlands playground birthday party is to be held on Friday, July 30. Handicraft classes are making colorful decorations for the occasion. There will be a playground picnic on August 18.

OPEN AUGUST 2 The new wading pool at Riverdale is making a great hit. The pool is in use but the official opening will not be held until August 2.

North Edmonton playground kids are pleased with the new equipment recently installed. A huge sand box, basketball court, horseshoe pitch and volleyball court are now in use.

Calder is going ahead with plans for a marriage with Miss McCloy, with Mrs. Driscoll directing the ceremony.

Both Sides in Ship Strike Criticized

Transport Minister Condemns Tactics of Company and Union

OTTAWA, July 28.—(UPI)—Transport Minister Lester B. Pearson today condemned the tactics of both the Canadian Seamen's Union and Canada Steamship Lines for their actions in the current lake shipping strike.

Chevrier branded the CSU's action in using force on union pickets as "reprehensible," and declared that the executive of the CSU had "usurped the functions of the law by taking the law into their own hands." He said he felt the union was intent on fomenting trouble and discord in industry.

GRAVE DOUBTS

"I have very grave doubts about the tactics of the CSU and the C.S.L. generally throughout this whole dispute," the minister said. "This applies to the company's latest move to boycott shipments to Cornwall and the conduct and attitude of the CSU."

The minister made public a letter written to CSU great lakes director, Michael Jackson, which said: "My feeling all along has been that the only thing you and your associates are interested in is the fomenting of trouble and discord in industry."

DESTRUCTIVE

"Let me tell you that the attitude of men like yourself is destroying the shipping industry in this country today."

"I am satisfied that the members of the CSU are not Communist, but I am convinced that some of the leaders are actuated by a desire to disrupt our economy, and are not acting in the best interests of the seamen members."

The letter was in reply to a telegram dated July 25 from Jackson in which the CSU director declared that refusal of the shipping companies to enter into negotiations with the union, "their organizations of private armies, their use of firearms and the shooting of seamen in cold blood," would "only lead to greater unity of the people against both the companies and the government which is supporting them."

Chevrier said the government had taken no side in the dispute. "The conduct and tactics of CSU (Canada Steamship Lines) are equally reprehensible," he said. "The shooting of men cannot be condoned."

NO SUPPORT

The transport minister said that by a provision of the Canada Shipping Act, the right of any person to board a ship without the permission of the master was prohibited. Yet, he added, the CSU declared it had a legal right to board the vessels.

"Notwithstanding this (the shipping act provision) you take the law into your own hands and repeatedly commit breaches of this section of the act," Chevrier said.

The minister charged that in its labor-management contractual relations, the CSU had shown "utter disregard for the contracts which they have signed."

"As long as the CSU under its present leadership persists in committing acts of violence, it will receive no support from the government," Chevrier said. "The government will give support to law-abiding unions to the full extent of its power."

\$443,399 Repair Bill For Floods

WINNIPEG, July 28.—(CP)—The provincial government will spend \$443,399 for repair of provincial and municipal highways damaged by spring floods, Hon. Erick Wiliams, public works minister, announced last night.

Government participation as far as municipalities are concerned will be confined to principal roads and their bridges, he said with no provincial assistance planned for side roads or their bridges.

MAKERS REALLY WEREN'T HAPPY

COLUMBUS, O., July 28.—(AP)—How would you like to sleep these hot nights on a mattress stuffed with cigarette packages and gum wrappers, bottle caps, nails, match boxes, wires, nuts and bolts?

That is what a Cincinnati woman recently found in her four-year-old daughter's new mattress when she became ill from the wire jabs.

The manufacturer of the mattress said it had been made by disgruntled employees.

Russians Decline Bid To Air Show

NEW YORK, July 28.—(AP)—Russian officials have declined an invitation to attend an air show, part of the Golden Jubilee celebration of Greater New York City.

Representatives of 33 other countries have accepted the invitation for May 9, Aug. 7.

First 1948 Rye Delivery Made

WINNIPEG, July 28.—First delivery of rye reported this summer has been made at Hurdell, Alberta, from the farm of I. Hopkins, J. H. Aimes, general agricultural agent for the Canadian Pacific Railway, said Tuesday. The crop is expected to yield 10 to 12 bushels per acre.

Japan Professors Defy MacArthur by Strike

TOKYO, July 28.—(UPI)—Nearly 5,000 professors at Japanese colleges and universities went on strike today despite a warning from a cabinet minister they were violating Gen. Douglas MacArthur's order forbidding government employees to strike.

The walkouts came a few hours after James S. Killen, chief of MacArthur's labor section, said he would resign because he disagreed with the occupation's new labor policy for Japan.

A committee of the Federation of unions of government employees, who were protesting against the order, said they had no legal power to bind the actions of the unions.

The committee referred to a letter MacArthur wrote President Hiroshi Ashida last week in which the supreme commander strongly suggested that strikes by public employees be banned.

Killen said he was resigning because he could not adjust himself to the new labor policy which denies the right of collective bargaining to the legally-constituted unions of government employees.

Republicans Scuttle Truman's Price Plans

WASHINGTON, July 28.—(AP)—The Republicans running the United States Congress today steered President Truman's special session program toward a civil rights (liberal) almost certain to scuttle it.

And as they laid plans for a speedy adjournment, they announced complete willingness to let the voters decide in November whether they had done the right thing.

Democrats promptly shouted "sabotage." They accused the majority party of selling out deliberately to wreck the president's program for anti-inflation and housing legislation which he pleaded for yesterday to avert "another great depression."

Privately some Republicans questioned the wisdom of the leaders' strategy, which Senator Edward R. Robinson (Rep., Wis.) said had been arrived at after consultation with Governor Thomas E. Dewey of New York, the party's presidential nominee.

The Republican decision to give top priority to civil rights legislation instead of to the anti-inflation measures asked by Truman was announced in a joint statement by senate and house leaders.

Members said they will take up so the senate perhaps today but possibly tomorrow, an anti-poll tax bill already passed by the house of representatives and fiercely opposed by southern Democrats as a violation of states rights.

Yugoslavs Say West Giving Trieste to Italy

LAKE SUCCESS, N.Y., July 28.—(UPI)—Yugoslavs charged to the United States and Italy that the United States and Italy have conspired to incorporate the western zone of Trieste into Italy and asked the United Nations Security Council to label the move a threat to world peace.

The Yugoslav delegation to the UN said Britain and the U.S. have made economic and fiscal agreements with Italy which would give the Italian government complete control over western Trieste territory, placed under three-power rule by the Italian peace treaty.

The Yugoslav statement also charges that the U.S. and Italy had completed a plan to include the western allies' zone of Trieste in the Marshall Plan.

The statement, addressed to Security Council President Dmitri Z. Manastirsky, of the Soviet Union, said the western powers had given Italy complete control over western Trieste's finances and "had handed over to the Italian government control of the most important foreign relations of the Adriatic-American zone."

This was accomplished, Yugoslavs charged, by Italian agreements with the western powers to gain the legally-constituted take over part of Trieste, in violation of the Italian peace treaty.

Accumulated Gas in Shaft Causes Death of 13 Miners

From BUP and AP Dispatches
PRINCETON, Ind., July 28.—An explosion yesterday at King's mine in which 13 miners were killed was caused by "accumulated gas" in a sealed-off shaft, state mine bureau officials said today.

Federal, state and company investigators examined the mine. Secretary Griffith Morris of the State Board of Mines announced that electrical machinery operated elsewhere in the pit might have sparked the explosion.

It was the second serious explosion in eight months at King's. The previous blast, last November, caused no deaths but was followed by extensive fires which closed the mine for more than two months.

The mine had been closed again last week because of water seepage. It had been inspected Sunday by state mine inspectors and has been reopened only yesterday.

Two men were injured critically in yesterday's blast, and a rescue worker also was in a hospital after being overcome by gas. His condition was not serious.

The dead and injured were members of a single loading unit which was on the lowest level of Indiana's deepest shaft mine, 43 feet underground, and three miles east of the tipple.

Coroner C. C. Cooper said all the bodies were badly mutilated and burned. All were brought out within three hours after the explosion. There were 116 men in the mine at the time, but other crews were not endangered. The blast caused only a small fire which was soon put out.

Burrows Motors Open New Showroom on Jasper Ave.

Edmonton's newest automobile showroom—that of Burrows Motors Limited—officially opens tomorrow.

A beautiful example of modern architecture, the firm new premises located at the corner of 106 street and Jasper avenue, offer an entirely new standard of convenience and service to motorists of greater Edmonton and district.

Recorded at the cost of \$80,000, the building marks the fourth extension to Burrows Motors Limited, since the company was formed in December, 1928.

A. I. Burrows, veteran Alberta automobile dealer, and founder of Burrows Motors Limited which is jointly operated by himself and his two sons, J. W. Burrows and R. B. Burrows, first commenced business at Hanna, before coming to Edmonton in the summer of 1928. He was born at Redvers, Canada, coming to this country in 1904.

ORIGINAL SPOT
Burrows' original place of business was north of Jasper avenue on 106 street, which is now the location of the firm's parts depot and heavy repair shop.

This building was opened in December, 1928, and has since then been the business as Dodge and DeSoto dealer here for 10 years before the increased volume of business necessitated increased facilities.

In June, 1938, the firm established its floor space with its first expansion, erected immediately north of the original building.

Seven years later, in August, 1945, Burrows Motors Limited completed their second expansion, erecting a modern service station, which was used for greasing, tire repairs, etc., and also motor tune-up and wheel alignment chores were handled.

The third expansion occurred two years later, in November, 1947, when the firm added their body shop with a full steel basement, which was utilized as an overhead storage for parts and employees quarters with ultra modern facilities featuring individual lockers, a lunch room where meals may be obtained at cost, and modernized washrooms.

FOURTH ADDITION
Tomorrow marks the opening of the fourth and latest expansion—the modernized showroom and garage.

WITH RADAR He'll Hunt For Booty Of Pirates

CHESTER, N.S., July 28.—(CP)—Col. H. A. Gardner of Arlington, Va., arrived at his summer home at nearby Oak Island yesterday to pursue one of Nova Scotia's favorite outdoor sports—hunting for the buried loot of pirates.

He has negotiated for the purchase of the eastern end of this South Shore island, and some believe several generations ago pirates hid their treasure. He will use electrical equipment similar in operation to radar and will proceed on plans formulated over the last 50 years.

He also claims to be well-informed on the history of the buccanniers and their various expeditions. He mentioned in an interview yesterday that he had "had a chat" Monday with a man in Amherst, N.S., who conducted a search in 1855 on Oak Island.

There are several perennial hunting grounds in the province but Oak Island remains the favorite. Aside from a few treasure hunters, no treasure has even been reported by searchers.

Stettler District Is Facing Serious Teacher Shortage

STETTLE, July 28.—(CP)—The Stettler school division is facing a serious teacher shortage for the fall term. David Dittman, secretary of the division, said last night. He said 28 out of a total of 37 teachers in the division have resigned.

"We can easily trace the reason for the resignations and the extreme difficulty in making replacements," he said. "The teachers are looking for the bright lights. We are too far from the main line and have only four grade schools . . . all rural schools are suffering the same way."

O'Leary Chairman Of Committee For Tory Convention

OTTAWA, July 28.—(CP)—M. Grant O'Leary, associate editor of the Ottawa Journal, was appointed yesterday as chairman of the Ottawa Local Arrangements Committee for the Progressive Conservative national convention being held here Sept. 28, Oct. 1 and 2.

Douglas Morrison, Progressive Conservative member of the Ontario legislature for Carleton Place, was appointed secretary.

The committee will have charge of accommodation and the arrangements for the 1,200 delegates and 350 alternate delegates who will attend the convention.

Hospital May Have To Close Section

RED DEER, July 28.—(CP)—Board of the Municipal General Hospital disclosed today that it will be forced to close a section of the hospital August 1 unless additional nursing staff can be obtained. Seven nurses and the matron, Miss Florence Barrard, are resigning effective July 31. A new matron has been secured, but no replacements have been obtained for the nurses, who comprise one-third of the staff.

of ambition—that of owning the largest and most modernly equipped self-contained garages in Edmonton.

He is equally proud of his business and service record during his 26 years in business in the city, and credits his success to an abundance of satisfied customers.

His sons, J. W. "Jack" and R. B. "Boyan" both are associated with him in business. They are both veterans of World War II, and each served with the Canadian Army Service Corps.

ARMED SERVICES
Hoyan was a sergeant, serving with the CASC from November, 1942, until February 12, 1946. Jack, a Lieutenant, was on active service from June, 1941, until August, 1945.

Both are married. Jack with wife Helen and daughter Elizabeth Jane, live at 1134 79 avenue, while Boyan and wife Jean live at 1161 91 street.

A. I. Burrows and wife, who make their home at 9848 107 street, have one other child, a girl, Mrs. G. B. Wilber, of Ponoka, whose husband is also a garage proprietor.

Karrrps To Ottawa
OTTAWA, July 28.—(CP)—Steve Karrrp's former halfback with Toronto Varsity and Toronto Argonauts, is in the big four, has signed with Ottawa Rough Riders, club general business center.

Four offices are located on the corner, two large offices and a pair of smaller ones. Four showrooms, two for men and two for ladies, are also located here.

A. I. Burrows claims that with Football Union last year, also the completion of this latest expansion he has achieved his life's task within a day or two.

J. W. BURROWS
... Vice-President.

Duke Suggests Europe Disarm

LONDON, July 28.—(AP)—The Duke of Bedford suggested Tuesday Britain and Western Europe disarm completely and trust to protection from the United States and the British Commonwealth if attacked.

The peer, a pacifist who advocated a negotiated peace early in the Second World War, published a pamphlet saying the area can no longer be defended by the old methods of military strategy.

Under his plan, any aggressor which moved into Western Europe would be subject to retaliation by "atomic and other weapons" from the United States and distant parts of the Commonwealth.

"Western Europe," he wrote, "has freed from the burden of armaments, could direct all its energies into constructive channels. It could be turned into a kind of cultural and economic showpiece for the entire world, which would have the double advantage of alleviating the benefits of disarmament and of undermining the psychological appeal of Communism."

A. I. BURROWS
... President.

Calgary Replaces Airport's Paving

CALGARY, July 28.—(CP)—The placement of heavy paving of the south part of the long north-south runway and installation of taxi strips will constitute the 1948 program of work at the Municipal airport, civic officials disclosed last night. The work is expected to make the field available for mainline traffic of Trans-Canada Airlines. Mainline traffic recently was transferred to Lethbridge, due to poor condition of the field.

Pioneer Of West Dead At Calgary
CALGARY, July 28.—(CP)—Samuel Scott, 81, pioneer of the west and an ardent horseman, died yesterday following a short illness. He came west as a boy in 1872 and lived at Rockford and Kamloops in British Columbia before moving to Millerville, Alta. in 1904. He retired to Calgary in 1923. Survivors include his widow and a twin sister, Mrs. James Aird of Lethbridge.

R. B. BURROWS
... Vice-President.

Mobile Psychologists Make Bad Kids Good

NORMAN, Okla., 2.—(UPI)—Your child may have great mental ability, but you may keep him from developing it by making home life unhappy.

That is the word of members of Oklahoma's mobile psychological unit.

Psychologists of the unit travel to towns through Oklahoma, offering help without charge to persons who have mental problems. The organization works principally with children. Members report remarkable success in making good pupils out of bad ones.

TALK WITH PARENTS
Usually they talk with parents of children, who teachers say are not getting along well in school. In many cases they find the "problem" children are intelligent but unhappy.

Although sponsored by the committee for mental hygiene and the University of Oklahoma, the psychologists of the unit travel to towns through Oklahoma, offering help without charge to persons who have mental problems. The organization works principally with children. Members report remarkable success in making good pupils out of bad ones.

Interceptor Squadrons For Canada Next Year

OTTAWA, July 28.—(CP)—Canada yesterday announced formation of an RCAF unit to train her fighter pilots in operational tactics and her air chief said the first two regular interceptor fighter squadrons will be in existence within 12 months.

Canada's present ability to meet an air assault, Air Marshal W. A. Curtis said in an interview, lies in the size of the eight auxiliary or part-time squadrons that are in existence.

By spring, he said, the first of the first all-Canadian wing—was announced by Defence Minister Claxton, beginning Sept. 1, it will convert winged pilots to jet fighters and train them in interceptor operations.

Simultaneously, ground crew men will be taught operations room control work.

Mr. Claxton said a bomber squadron would be activated on a permanent basis and two of the auxiliary squadrons at Saskatoon and Edmonton, were tactical bomber units. The regular bomber squadron is expected to be based on or near the east coast.

City Man Jailed
CALGARY, July 28.—(CP)—Gerald S. Hecker of Edmonton yesterday was sentenced to six months hard labor when he pleaded guilty to theft and six charges of forgery and false pretense. The forgery involved use of a department store account to obtain clothing.

Burrows Motors Limited Are Pleased to Invite You to the Opening of Their NEW SHOWROOM on July 29 and 30!

DISPLAY ROOMS
This newest feature of the Burrows organization is the "latest word" in every respect. Large, attractive and well lighted . . . Dodge cars will be displayed in a setting worthy of this distinguished automobile.
